Summary

Full Stack Developer Intern with hands-on experience in building enterprise web applications, full-funnel marketing analytics, and asynchronous task queues. Proficient in **Java (Spring Boot, Spring AI)**, **Python (Django, RabbitMQ, Scripting)**, **React**, and **SQL (PostgreSQL, MySQL)**. Experienced in designing resilient backend services, production automation scripts, and multi-model AI integrations in fast-paced software engineering environments.

Professional Experience

Easy Insights Pvt. Ltd., New Delhi *Aug 2026 – Present*
Full Stack Developer Intern

Full Funnel Overview & Web Application Development
Tech Stack: React, Django REST Framework, Python, SQL, PostgreSQL, PostHog

- Engineered core frontend features and backend APIs for the company's **Full Funnel Overview** module using **React** and **Django REST Framework**, unifying multi-touch marketing attribution and conversion data into an interactive dashboard.
- Formulated and optimized complex **SQL and PostgreSQL** queries for real-time aggregation and rapid data retrieval across analytical reporting modules.
- Diagnosed production defects, resolved application bugs, and integrated **PostHog** session analytics to track user flows and optimize dashboard responsiveness.

Task Processing & Monitoring System
Tech Stack: Python, RabbitMQ, Telegram Bot API, PostgreSQL

- Built an automated **Telegram-based bot interface** integrated with internal company APIs for real-time operational task management.
- Implemented asynchronous background task processing using **RabbitMQ** message queues with live worker status and failure tracking.
- Integrated **PostgreSQL** for persistent task audit logging, worker execution telemetry, and lifecycle state tracking.

Production Automation & Data Extraction Scripts
Tech Stack: Python Scripting, REST APIs, DigitalOcean API

- Engineered automated Python scripts to extract and retrieve destination URLs for **Meta and Google landing pages** and **Meta Instant Forms** feeding downstream ad-attribution funnels.
- Developed automated scripts querying the **DigitalOcean API** to fetch active company servers, providing real-time infrastructure visibility.

Projects

Multi SpringAI Chat App (Multi-Model AI Chat Platform) GitHub
Tech Stack: Java, Spring Boot, Spring AI, React (Vite), REST APIs, Ollama, OpenAI, Anthropic

- Built a full-stack AI chat platform integrating **OpenAI, Ollama, and Anthropic** models for multi-model response comparison.
- Developed Spring Boot REST APIs utilizing **Spring AI** to process user prompts and communicate with multiple AI model providers in parallel.
- Designed a React (Vite) frontend to dispatch prompts simultaneously and compare responses, latency, and outputs side-by-side.

Aadhaar Management & Authentication System GitHub
Tech Stack: Java 17, Spring Boot, Spring Data JPA, Hibernate, MySQL, REST APIs, Postman

- Created secure Spring Boot REST APIs for Aadhaar and Person records with full CRUD functionality and structured validation.
- Configured one-to-one entity mappings with **Spring Data JPA and Hibernate** to enforce relational data integrity in MySQL.
- Engineered an Aadhaar authentication API with database integration and verified endpoint contracts through comprehensive **Postman** test suites.

Skills And Interests

Programming Languages: Java, Python, JavaScript, SQL
Web & Frameworks: Spring Boot, Spring AI, Django, React, HTML5, CSS3, Bootstrap
APIs & Messaging: RabbitMQ, Telegram Bot API, REST APIs, Hibernate (JPA)
Databases: PostgreSQL, MySQL, Oracle
Tools & Platforms: Linux, Git, GitHub, VS Code, PostHog, Postman, Eclipse, Vercel
Core CS Concepts: Data Structures & Algorithms (DSA), OOP, DBMS, SDLC

Education

B.Tech in Information Technology | Netaji Subhash Engineering College *Kolkata (2023 – 2026)*
Diploma in Electrical Engineering | Government Polytechnic Sahibganj *Jharkhand (2020 – 2023)*
Higher Secondary | D.A.V. Public School Koylanagar *Dhanbad (2020)*
Secondary | D.A.V. Public School Koylanagar *Dhanbad (2018)*

Awards And Certifications

- Certified in **SQL** – HackerRank Verified Credential
- Secured **5th place** among participating teams in the **DevNexus Hackathon**.
