ABHINAV KUMAR SINGH

+91 6200529532 | abhinavkrsingh83@gmail.com | LinkedIn | CodeMaestro-04 | Dhanbad, Jharkhand

Summary

Full Stack Developer Intern with hands-on experience in developing and enhancing **web applications, REST APIs, and database-driven systems**. Proficient in **Java, Python, JavaScript, and SQL**, with experience in **React, Django, Spring Boot, PostgreSQL, and Hibernate**. Experienced in developing frontend features, backend services, database operations, and integrating application components in a professional environment.

Professional Experience

Easy Insights Pvt. Ltd., New Delhi *10 Aug 2026 – Present*
Full Stack Developer Intern

Web Application Development

Tech Stack: React, JavaScript, Django REST Framework, Python, SQL, PostgreSQL, REST APIs, PostHog

- Developing and enhancing **web application features** using React and building backend services with **Django REST Framework**.
- Working with **SQL and PostgreSQL** for database operations, data retrieval, and application-level data management.
- Debugging existing features, resolving application issues, and implementing enhancements based on project requirements.

Task Processing & Monitoring System

Tech Stack: Python, RabbitMQ, Telegram Bot API, PostgreSQL

- Built a **Telegram-based interface** integrated with company APIs for task-related operations.
- Implemented asynchronous task processing using **RabbitMQ** with worker status and failure monitoring.
- Integrated **PostgreSQL** for persistent task logging and execution-status tracking.

Projects

Multi SpringAI Chat App (Multi-Model AI Chat Platform) GitHub

Tech Stack: Java, Spring Boot, Spring AI, React (Vite), REST APIs, Ollama, OpenAI, Anthropic

- Built a full-stack AI chat platform integrating **OpenAI, Ollama, and Anthropic** models for multi-model response comparison.
- Developed **Spring Boot REST APIs** using Spring AI to process user prompts and communicate with multiple AI model providers.
- Designed a **React-based frontend** to send prompts and display responses from multiple AI models in parallel.

Aadhaar Management & Authentication System GitHub

Tech Stack: Java 17, Spring Boot, Spring Data JPA, Hibernate, MySQL, REST APIs, Postman

- Created **Spring Boot REST APIs** for Aadhaar and Person management with CRUD operations.
- Configured **one-to-one entity mapping** using Spring Data JPA and Hibernate for structured relational data management.
- Engineered and tested an **Aadhaar authentication API** with MySQL database integration and endpoint testing using Postman.

Skills And Interests

Programming Languages: Java, Python, JavaScript, SQL
Web Technologies: HTML, CSS, Bootstrap
Java Technologies: JDBC, Servlets, JSP
Frameworks & Libraries: Hibernate, Spring Boot, Spring AI, Django, React
APIs & Messaging: RabbitMQ, Telegram Bot API, REST APIs
Databases: MySQL, PostgreSQL, Oracle
Tools & Platforms: Linux, Git, GitHub, VS Code, PostHog, Eclipse, Postman
Core CS Concepts: DSA, OOP, DBMS, SDLC

Education

B.Tech in Information Technology Kolkata
Netaji Subhash Engineering College *2023-2026*

Diploma in Electrical Engineering Jharkhand
Government Polytechnic Sahibganj *2023*

Higher Secondary Dhanbad
D.A.V. Public School Koylanagar *2020*

Secondary Dhanbad
D.A.V. Public School Koylanagar *2018*

Awards And Certifications

- Certified in **SQL** – HackerRank
- Secured **5th place** among participating teams in the **DevNexus Hackathon**.
